**04 December 2012**

**To Whom It May Concern**

Our Ref: 4609

Dear Sir or Madam:

I hereby confirm that Kyriakos Papadopoulos has worked as a fulltime systems specialist for Sapienza Consulting from January 2012 until the present time (November 2012).

He is part of a 5-man infrastructure-management team on site at the European Space Agency in Noordwijk, NL. Kyriakos has during this time administered several dozens of Solaris- and Linux- based servers and assisted in maintaining and troubleshooting the Java applications that are hosted on them. He has also taken care of hardware-support including the maintenance and operation of physical servers, storage-arrays and tape-libraries.

His friendly, correct, attitude and interest in investigating improvement-opportunities have been valued.

Kyriakos has decided that consultancy-type work is not his main interest and we have therefore decided to part ways on the friendliest of terms. We are confident that he will find a more suitable position soon.

Sincerely,

Frank Hoeben  
Team lead Technical Services Infrastructure
