To Whom It May Concern

Letter of Recommendation

Mr. Papadopoulos Kyriakos worked in our company from January 2009 up to today as engineer of information technology systems.

At the duration of his employment in the company proved to us professionalism, disposal for further development of his knowledge while it executed irreproachably his duties.

During that period he was occupied, as project manager, in the following projects and research activities:

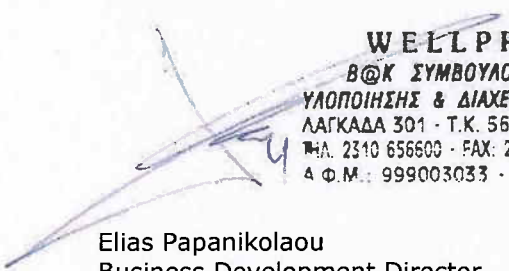

- Design and Migration from Microsoft Terminal Services Clients to Sun VDI Thin Clients Infrastructure in various productive environments.
- Research and Development of various Servers and Client Virtualization Solutions from different vendors, specifically in Sun VDI, Oracle VM, VMware ESX, Microsoft Hyper-V.
- Design and Integration of Microsoft Active Directory Infrastructure and Network Services and also Upgrades and Migrations of older versions.
- Research, Design and Installation of the “Public Wireless Infrastructure of the Municipality of Veria”, providing residents with free and subscribed Internet Services.
- Research and Development of various network Access Control Systems used mainly in Hospitality in combination with Property Management Systems. Specifically with Nomadix, Radius Manager, Cisco BBSM.
- Administration and Maintenance of Storage Area Networks of IBM, Hewlett Packard.

During that period Mr. Papadopoulos Kyriakos has proved his faculties to conceive new ideas and significances and to apply this knowledge into practice. Moreover, it has worked excellently not only independently but with other colleagues as well. Finally, he was proved capable in managing his professional relations with customers and our collaborators.

For any further information do not hesitate to contact us.
